

Medical Devices Corporation

Portable & Cloud-based Peritoneal Dialysis

PdEasy is an innovative automated peritoneal dialysis cyclor which helps peritoneal dialysis patient from performing manual peritoneal dialysis exchanges during the day.

Cloud-based solutions
for peritoneal dialysis

PdEasy is supported by cloud based technology; known as **Pd2U**, which allows sharing of real-time patient information between physician, nurses and healthcare service provider using latest mobile devices.

PdEasy and **Pd2U** are safe, easy to use and financially sustainable for renal therapy.
